Course Overview

The **Information Management and Knowledge Sharing** course by **Magna Skills** equips professionals with the essential skills to capture, organize, store, and disseminate information effectively within organizations. In today's knowledge-driven environment, the ability to manage and share information efficiently enhances productivity, innovation, and decision-making. This course emphasizes the use of modern tools and best practices in knowledge management systems, digital documentation, and organizational learning. Participants will explore how to transform data into actionable insights and promote a culture of collaboration and continuous improvement.

This course is ideal for information officers, administrators, researchers, knowledge managers, librarians, ICT professionals, and managers responsible for organizational learning and data-driven decision-making.

Course Outcomes

By the end of this course, participants will be able to:

1. Understand the principles and frameworks of information and knowledge management.
2. Develop systems for collecting, organizing, and storing information securely and efficiently.
- 3.

Apply tools and technologies for effective knowledge sharing and collaboration.

4. Promote organizational learning through knowledge transfer and best practice sharing.
5. Strengthen decision-making and innovation through effective information use.

Course Outline / Curriculum

1. **Introduction to Information and Knowledge Management**
