Course Overview

Magna Skills presents the Email Administration & Server Management course, tailored for IT professionals and system administrators looking to master the complexities of email systems and server management. This program covers essential skills, best practices, and advanced techniques for efficiently managing email services and servers.

Course Outcomes

Upon completion of the course, participants will:

- Email System Fundamentals:**
 - Gain a solid understanding of email system architecture and components.
 - Learn the basics of email protocols, including SMTP, IMAP, and POP3.
- Server Configuration and Optimization:**
 - Acquire skills in configuring and optimizing email servers.
 - Understand the importance of server security and performance.
-

Email Administration Tools:

- Explore commonly used email administration tools and platforms.
- Learn to troubleshoot and resolve email-related issues effectively.

4.

User Account Management:

- Develop proficiency in managing user accounts and permissions.
- Understand the principles of user authentication and access control.

5.

Email Backup and Recovery:

- Implement robust email backup and recovery strategies.
- Understand disaster recovery planning for email systems.

6.

Security and Compliance:

- Learn best practices for securing email systems against threats.
- Understand compliance requirements related to email communication.
