## Course Overview

The Advanced Records Management Training course is designed to stretch the thinking of those who have been in the records management industry for some time. We discuss advanced concepts in a workshop environment and test traditional thinking. This programme is not suited for new records managers or those just starting out in the industry. Delegates from the private and public sector will benefit from this programme. Staff members responsible for Information Governance in their organisations will benefit and be able to take back some of the concepts to expand on traditional records and archives thinking.

## Course Outcomes

---

- Understand the implications of new legislation on records management and guide the organisation to becoming compliant
- Create a strategic plan for a records improvement process
- Align the records management programme to the corporate goals and objectives
- Provide input into the the Entrprise Content Management initiatives of the organisation.
- Prepare the organisation for Information Governance, beyond IT Governance
- Assist the organisation in balancing the needs for Privacy versus Accessibility of records
- Lead the process for managing social media as records where appropriate.
- Make informed decisions as to whether the "Cloud" is a suitable repository for organisational records
- Look beyond traditional "File Plan" thinking and start developing value-based records classification schemes
- Inform the organisation of the pros and cons of Sharepoint as a records management system.
