Course Overview

Our Microsoft Office training includes a variety of courses designed to teach individuals of all skill levels about using all of the Office programs. Our instructor led training is offered by certified instructors to professionals and individuals as well as corporate and government customers. With our MS Office training, individuals can improve their skills and knowledge for all of the latest Office programs. This is beneficial for individuals who are hoping to increase their value in the workplace and for companies that are interested in boosting employee productivity and efficiency.

This course is designed to teach the new and experienced user alike how to use the many features of Microsoft Office to create documents, publications, and complete tasks that require the use of a word processor. You'll start out learning the very basics of Microsoft Office using instructions and screenshots, then progress into intermediate and advanced features and techniques so that you can get the most out of the popular program.

Course Outcomes

- Recognize when to use each of the Microsoft Office programs to create professional business documents.
- Use Microsoft Office programs to create personal and/or business documents following current professional and/or industry standards.
- Pursue future courses specializing in one or more of the programs.
- Apply skills and concepts for basic use of computer hardware, software, networks, and the Internet in the workplace and in future coursework as identified by the internationally accepted Internet and Computing Core (IC3) standards.
