Course Overview

The Air Transport Planning and Management course by Magna Skills provides a comprehensive understanding of the essential elements of air transport. Through detailed modules covering airline operations, airport management, air traffic control, regulatory frameworks, and strategic planning, participants will be equipped with the skills and knowledge required to effectively manage air transport systems. This course is ideal for aviation professionals aiming to enhance their expertise and advance their careers in the industry.

Course Outcomes

- **Understand Airline Operations:**
  - Gain insights into the operations and management of airlines.
  - Learn about fleet planning, route selection, and scheduling.
- **Master Airport Management:**
  - Understand the key aspects of airport operations and management.
  - Learn about airport planning, capacity management, and passenger services.
-

Comprehend Air Traffic Control:

- Understand the principles and practices of air traffic control.
- Learn about airspace management, navigation systems, and safety protocols.

- **Navigate Regulatory Frameworks:**
  - Gain knowledge of international and national aviation regulations.
  - Understand compliance requirements and regulatory bodies.
- **Enhance Strategic Planning Skills:**
  - Develop strategic planning skills for air transport management.
  - Learn about market analysis, business development, and risk management.
