Course Overview

The Project Management course offered by Magna Skills is designed to provide participants with comprehensive training in project management principles, methodologies, and best practices. Participants will learn essential skills and techniques to effectively initiate, plan, execute, monitor, and close projects, ensuring successful project outcomes within scope, budget, and schedule constraints.

Course Outcomes

1. **Project Initiation:** Understand the importance of project initiation and the key components of a project charter. Learn how to define project objectives, scope, stakeholders, and success criteria.
2. **Project Planning:** Develop skills in project planning, including creating work breakdown structures (WBS), defining project tasks, estimating resources, and developing project schedules and budgets.
3. **Project Execution:** Learn strategies for effective project execution, including team management, communication, risk management, and quality assurance to ensure project deliverables meet stakeholder expectations.
4. **Project Monitoring and Control:** Gain insights into project monitoring and control techniques, including progress tracking, performance measurement, issue identification, and change management to keep projects on track.
5.

Project Closure: Understand the importance of project closure and learn how to effectively close out projects, including finalizing deliverables, obtaining project sign-off, conducting lessons learned, and transitioning project outputs.

Course Outline / Curriculum

Module 1: Introduction to Project Management

- Definition of project management
- Importance of project management in organizations
- Key roles and responsibilities of a project manager

Module 2: Project Initiation

- Defining project objectives and success criteria
- Creating a project charter
- Identifying project stakeholders

Module 3: Project Planning

- Creating a work breakdown structure (WBS)
- Defining project tasks and dependencies
- Estimating resources, durations, and costs
- Developing project schedules and budgets

Module 4: Project Execution

- Team development and management
- Effective communication and stakeholder engagement
- Risk identification, analysis, and response planning
- Quality planning and assurance

Module 5: Project Monitoring and Control

- Progress tracking and performance measurement
- Issue identification and resolution
- Change management processes
- Project status reporting

Module 6: Project Closure

- Finalizing project deliverables
- Obtaining project sign-off
- Conducting lessons learned
- Transitioning project outputs

Module 7: Leadership and Team Management

- Leadership styles and strategies
- Team development and motivation
- Conflict resolution techniques

Module 8: Stakeholder Management

- Identifying and analyzing stakeholders
- Stakeholder engagement and communication strategies
- Managing stakeholder expectations

Module 9: Risk Management

- Risk identification and assessment techniques
- Risk response planning and mitigation strategies
- Monitoring and controlling project risks

Module 10: Quality Management

- Quality planning and assurance processes
- Quality control techniques and tools
- Continuous improvement strategies

The Project Management course provides participants with the knowledge, skills, and tools necessary to effectively manage projects from initiation to closure. Through a combination of theoretical learning, case studies, practical exercises, and interactive discussions, participants will gain the confidence and competence to lead successful projects and deliver value to their organizations.

Target Audience
