## Course Overview

Our Digital Citizenship course will give participants the guidance needed in the ever changing digital world. As our lives are lived more and more online we all need to translate our social skills into the virtual world. Digital Citizenship allows us to connect, collaborate, and share by using technology appropriately. In person meetings are on the decline which makes it necessary to engage people digitally. Being a good digital citizen means you have a set of skills to work in the digital world.

The Internet has changed the way that people connect, communicate, and conduct business. The digital age has provided many benefits, but it does have a downside. Given the sheer volume of digital information that we send and receive each day, it is important to learn basic citizenship skills. These skills will help prevent missteps and keep your digital relationships running smoothly.

## Course Outcomes

---

Research has consistently demonstrated that when clear goals are associated with learning, it occurs more easily and rapidly. With that in mind, let's review our goals for today.

### **At the end of this workshop, participants should be able to:**

- Define digital citizenship.
- Use technology appropriately.
- Use social networking to create your brand.
- Protect your reputation online.
- Practice safe use of technology.
- Understand digital etiquette.
